

The image displays a 2D grid of 100 columns and 100 rows. The grid contains a complex, irregular shape defined by black and white pixels. The shape is roughly rectangular, spanning from approximately column 20 to column 90 and row 20 to row 80. It features several protrusions and indentations, including a large protrusion on the right side and a smaller one on the left. The shape is composed of black pixels on a white background.

The heatmap displays significant time windows for four brain regions: Calcarine_L, Calcarine_R, Lingual_L, and Lingual_R. The x-axis represents Time Windows (ms) from 400.0-425.0 to 775.0-800.0. The y-axis lists the brain regions. Significant clusters are indicated by red bars.
